

## **Surrette Battery Company Ltd – Solar Freight Policy USA**

Please find to follow an explanation of the freight allowance offered. The offer is broken into two (2) parts, which are based on the location of the destination - either East or West of the Mississippi with the exception of Alaska and Hawaii.

### **East of the Mississippi**

With the exception of S460 and S530's, for a minimum order weight of 2000 lbs., Surrette Battery Co. Ltd. will cover all basic freight charges East of the Mississippi.

With a minimum order of eighteen (18) S-460's or (18) S-530's, Surrette Battery Co. Ltd. will cover all basic freight charges East of the Mississippi.

Basic freight service does not include extra charges that would be incurred for delivery to non direct service points, residential drops, lift gates, export crating or "calls ahead" (by the Freight Company) prior to delivery.

Basic freight does cover common carrier service, to a commercial drop, for dry or wet batteries, anywhere East of the Mississippi. Our customers will be charged for all additional services required, i.e. lift gate, calls ahead, etc., that will appear as "freight charge" on their invoice. However, Surrette Battery Co. Ltd. will issue no additional charges to the customer without the prior authorization of these charges by the customer. If their order does not reach the minimum requirements, i.e. 1600 lbs. (East of the Mississippi), we will bill for the remaining portion of the freight, i.e. 20% in this case (1-[1600/2000]). Again, the customer will be made aware of and authorize all charges prior to the shipment leaving our facility.

### **West of the Mississippi;**

Same as above however minimum order weight is increased to 4000 lbs. Same as above however minimum order quantity is increased to thirty-six (36) units (S-460's and S530's).

### **Other Shipping Information**

- i) We will charge a flat fee for the three most common extra charges; Lift Gate - \$35.00, Calls Ahead - \$23.10 and \$35.55 residential delivery (USD).
- ii) No charge for Dry charged units however, separate electrolyte is not provided.
- ii) Separate electrolyte will cost \$20.00 (USD) per 20L, UN Approved.
- iv) Export crating will cost an additional 5% over the invoiced cost of the battery or shipment, i.e. \$15.00 on a \$300.00 battery order.
